

Perfume

Sandra Našić

Before we melt this empathy
You gotta breathe the scent of me
You say this world is overbored I know, and I don't want to know
I'm gonna start from the beginning again
Always forever and just back to the end
We're gonna sing this song all night long
Come on, forever is gone
Don't give yourself away
Just give yourself to me
You, coming through
You are my perfume
I said you, coming through
You are my perfume
So shot down I am not that torn
Fulfill my sense and commit my soul
I know what you buried underneath
Things are lost inside your head
I wanna get this perfect scent
The only thing we really have to attempt is
We gotta sing this song all night long
I gotta gather creeping under my tongue
Don't give yourself away
Just give yourself to me
You, coming through
You are my perfume
I said you, coming through
You are my perfume
Hey, I want to know what you are running from
You gotta give yourself and let me score
I don't think that you're right up there
I wanna push you to another square
I'm supposed to lick your wounds
Just give it up and I will change your moods
I don't know what you leave my soul
I just love when you poke me on
Don't give yourself away
Just give yourself to me
You, coming through
You are my perfume
You, coming through
You are my perfume
Before we met this empathy
You gotta tell me who you could be
We've gotta sing this song all night long
I wanna, wanna remember your love
So I'm fighting let my scent fade away
So I'm fighting let my scent fade away
