

# Celebrate Your Life

Sandra

I can never say good-bye  
Any special way  
Everything i left behind  
Will keep on callin'  
Can't take an' understand  
This masquerade  
Look back look back  
Who's to blame  
For puttin' out fire

Like a moviestar  
I would dream so far  
An' you

You celebrate your life  
An' with a one-way-ticket  
You fly up to the sky  
An' earth below is blue  
You celebrate your time  
But here i go  
Don't celebrate my life

I can't try to hold it down  
When you make your day  
Everytime you cross the line  
I'm way behind you  
No need to to say our fate  
Is just the same  
I put myself in your place  
There wasn't desire

Like a moviestar  
I would dream so far  
An' you

You celebrate your life  
An' with a one-way-ticket  
You fly up to the sky  
An' earth below is blue  
You celebrate your time  
But here i go  
Don't celebrate my life

Nanana  
But I can try to understand it  
Nanana  
I have just one life  
I celebrate it
