

# Enemy

Sandro Cavazza

It's too late to turn back now  
We got close but we lost somehow  
You don't know how to compromise  
And I don't know how to say goodbye

If we can't feel what we used to feel  
If we can't be what we used to be  
I'll do anything to keep you here  
I'll even be your enemy  
And if we can't say what we wanna say  
If we don't live for another day  
Then I'll do anything to keep you here, yeah  
I'll even be your enemy  
To keep you close to me

It's too late to make it right  
I'm out of hope and my heart is tired  
And you say things just to break me down  
And I say things just to hurt you now

If we can't feel what we used to feel  
If we can't be what we used to be  
I'll do anything to keep you here  
I'll even be your enemy  
And if we can't say what we wanna say  
If we don't live for another day  
Then I'll do anything to keep you here, yeah  
I'll even be your enemy  
To keep you close to me

Won't let it die, won't let it die, no  
Won't let it die, I keep you in my soul  
Won't let it die, won't let it die, no  
Won't let go  
Won't let it die, won't let it die, no  
Won't let it die, I keep you in my soul  
Won't let it die, won't let it die, no  
Won't let go

If we can't feel what we used to feel  
If we can't be what we used to be  
I'll do anything to keep you here  
I'll even be your enemy  
And if we can't say what we wanna say  
If we don't live for another day  
Then I'll do anything to keep you here, yeah  
I'll even be your enemy  
To keep you close to me

Won't let it die, won't let it die, no  
Won't let it die, I keep you in my soul  
Won't let it die, won't let it die, no  
Won't let go  
To keep you close to me  
Won't let it die, won't let it die, no  
Won't let it die, I keep you in my soul  
Won't let it die, won't let it die, no

Won't let go

If we can't feel what we used to feel  
I'm gonna be your enemy
