

# Young Again

Sandro Cavazza

I'm, I'm up in heaven tonight  
Watching the stars in your eyes  
Feels like I'm touching the sky  
Can we stay here forever

The sun's coming up  
We're coming down  
Time waits for no one, no one

There's only us  
There's only now  
So stay in the moment  
Before it's gone

Let's do something we'll never forget  
Live a life that we will never regret  
Hold me closer before the night ends  
'Cause this moment is as good as it gets  
If tomorrow goes up in flames  
Rather burn out than fade away  
Make the most of the time we got left  
'Cause we're never gonna be this young again

We're never gonna be this young again  
We're never gonna be this young again  
Oh-oooh, oh-oooh-oooh, oh-oooh-oooh  
No we're never gonna be this young again

Some, someday we're gonna look back  
And wish for the life that we had  
But some people live in the past  
And they stay there forever

The sun's coming up  
We're coming down  
So stay in the moment  
Before it's gone

Let's do something we'll never forget  
Live a life that we will never regret  
Hold me closer before the night ends  
'Cause this moment is as good as it gets  
If tomorrow goes up in flames  
Rather burn out than fade away  
Make the most of the time we got left  
'Cause we're never gonna be this young again

Oh-oooh, oh-oooh-oooh, oh-oooh-oooh  
Oh-oooh, oh-oooh-oooh, oh-oooh-oooh  
No we're never gonna be this young again

No we're never, never gonna be this young a-  
No we're never, never gonna be this young a-  
No we're never, never gonna be this young again  
No we're never gonna be this young again

No we're never gonna be this young again

No we're never gonna be this young again
