

## Bees

(Sandy) Alex G

I've been waiting for a woman I can call my own (he can call his own)

A lady I can call late at night on the telephone (on the telephone)

Daddy won't like the looks of a kid like me (of a kid like me)

She'll tell him to get lost cause she loves me (cause she loves me)

Don't worry honey because nothing ever bothers me

You can be the flower and I'll be the goddamn bee

Now what's so special about a thing that comes so naturally

Well I don't know babe cause nothing ever fazes me
