

Big World

(Sandy) Alex G

So many big problems for such a little girl
She wants to tell me all about her broken world
Sometimes I give a shit but I just don't know why
I'll take another one let me go outside

Somebody told me that I shouldn't go to school
I should just play guitar and try to break the rules
I thought I'd do it but I didn't even start
I couldn't bring myself to break my mommy's heart

Last night I saw her staring through the tv screen
Into another world no one has ever seen
There's something wrong with that but again maybe there's not
I guess it's all ok as long as she forgot
