(Sandy) Alex G

He knows now  
What he knew back then  
When he could tell  
The only meaning  
That he really felt

She says she knows  
What's up his nose  
And she stays  
'Cause she wouldn't have him  
Any other way

When he gets her alone  
He'll make her bed a gravestone  
And he'll dig til he can't think  
Another awful thing

What she goes through  
To be with you  
You are ought to give her the world

When she wakes up  
She's in love with the thought  
Of her boy  
Never ending sick special toy

When she gets enough  
She can't wait to show how tough  
She can be  
What she can teach you with her body

If it's what you want  
Baby I'll go down  
For you

What you tell me to  
I won't fight  
I will do

What you tell me to  
It's not wrong  
If it's for you

What you do too  
Sticks in me sticks in you  
You stay true  
Sticks in me sticks in you

Ooo
