

# Brick

(Sandy) Alex G

You think I don't but I always fucking do  
Every time you tell me something untrue  
Puts a brick in the wall between me and you

I know that you're lying

You think I don't but I always fucking do  
Every time you tell me something untrue  
Puts a brick in the wall between me and you

I know that you're lying  
I  
I know that you're lying

You think I don't but I always fucking do  
Every time you tell me something untrue  
Puts a brick in the wall between me and you

I know that you're lying

You think I don't but I always fucking do  
Every time you tell me something untrue  
Puts a brick in the wall between me and you

I know that you're lying  
I  
I know that you're lying  
I  
I know that you're lying
