

Change

(Sandy) Alex G

How are you today
I saw your friends band play
A little show last night
It's not my thing they were alright

You're in my dream last week
I'd like to hear what you think

We passed a house driving fast
The sun was shining on the grass
You made me stop and leave the car
You pulled my sleeve but not too hard

Remember when you took too much
I didn't mind being your crutch
We loved you then
Its not the same

I don't like how things change
I don't like how things change
