I took three more
I don't think I know you anymore
I took three more
I don't think I know you anymore

I took three more
I don't think I know you anymore
I took three more
I don't think I know you anymore

This is where I am
This is where I am
This is where I am

This is where I am
This is where I am
This is where I am

I took three more
I don't think I know you anymore
I took three more
I don't think I know you anymore

I took three more
I don't think I know you anymore
I took three more
I don't think I know you like before

This is where I am
This is where I am
This is where I am

This is where I am
This is where I am
This is where I am
