

## Krying

(Sandy) Alex G

She bites her nails as she waits for the train (Uh huh)  
You won't look up because you know she's insane (That's right)  
And if you touch her she'll shout through the tears  
She'll pull your hair and scream in your ears

"The meaning it goes away sometimes  
I know all the words but they don't seem to rhyme  
Sometimes all I can do is lie,"  
She says as the water pours from her eyes

You can't  
Make me cry  
You can try you can try  
But you can't  
Make me cry  
You can try you can try  
But you can't  
Make me cry  
You can try you can try  
But you can't  
Make me cry  
You can try you can try

"Bloody nose and a broken tooth  
Black and blue all over you,"  
You say as you walk her to the bus  
You're beat enough for the two of us

You'll go over under and backwards now  
Things that you want are what you're not allowed  
The people trying to bring you down  
Are the only ones who want you around

But they can't  
Make you cry  
They can try they can try  
But they can't  
Make you cry  
They can try they can try  
But they can't  
Make you cry  
They can try they can try  
But they can't  
Make you cry  
They can try they can try
