Light

(Sandy) Alex G

You keep going with that bow in your hair
I know that you're sorry, and I know that you care
You keep talkin' and you're makin' me sick
I know that you miss me, and I know that you're scared

This slow man's got serious plans
You know that he listens when you think he's not there
This heart is gold and this light is a gift
So just give me a kiss and I'll get out of your hair

We'll live in squalor and we'll live off the land
We'll be so happy because we so understand
We'll live in squalor and we'll live off the land
We'll be so happy because we so understand

(We'll live in squalor and we'll live off the land
We'll be so happy because we so understand)
