

Math

(Sandy) Alex G

This one's my fort under there
I think no one can see me
Are you a boy or a girl
You tell or you're leaving

Blood makes my brain start to hurt
And I know it baby
And I know it baby
Blood makes my brain start to hurt
And I know it baby
And I know it baby

I think once I hit you too hard
Cause I couldn't say fuck you
Remember I knocked on your wall
No one would believe you

This time it wasn't my fault
It's true, it was Matthew
I wanted to jump off the rails
But I can't so I spit through

Blood makes my brain start to hurt
And I know it baby
And I know it baby
Blood makes my brain start to hurt
And I know it baby
And I know it baby
