

Ready

(Sandy) Alex G

On your street
In your pause between sentences
I can tell what's hanging around
In your drawer
Roll around on the kitchen floor
I know what's been gettin' to you

Well, do you have it tonight?
"I dunno
I can't find it..."
Well, are you ready tonight?
"I dunno
But I'll try."

She came right through me

All worked up
Let back down by a memory
A word you said meant something to me
Chewin' gum
Killin' time till the morning comes
You could stay, or maybe you'll leave
Doesn't make a difference to me

She came right through me
