

Snot

(Sandy) Alex G

I saw you
Sparkling
And squirming
Under him
I know now
What's right and wrong
And I know when
To turn that off

It's shining
And combining
I knew you
Right before you said-

"I love him
And 666
I want him
To make me sick
My love comes
With my snot
I'm all in
And he's all out"
