Something 2 B

(Sandy) Alex G

I've been lying in my basement
I wanna call you but I can't speak out
Too many uppers too many downers
I had a problem but I'm over it now

Being somebody is just something to be
Being somebody is just something to be
Being somebody is just something to be
Being somebody is just something to be

Me and my mother went to the doctor
They tied me up and took my insides out
They got some scissors and clipped my feathers
And now I got nothing to worry about

Being somebody is just something to be
Being somebody is just something to be
Being somebody is just something to be
Being somebody is just something to be
