

# Tell Me What You See In Me

Sandy Denny

My ship sails in  
On a cloud of broken promises  
It's just not true  
Not a single word he says

Time will tell  
Whether he can change his ways  
It might take years  
It might even take always

Tell me what you see in me  
I'll tell you what I see in you

Your picture melts  
Before my tired eyes  
And all it leaves  
Is just a trace of paradise

You'll change again  
That's what I've been told  
But don't take long  
I might get too old

Tell me what you see in me  
I'll tell you what I see in you

Tell me what you see in me  
I'll tell you what I see in you

Take it easy  
But take it slow  
For who knows which way next  
That wind will blow

Time goes by  
As quickly as I want it to  
And I'll make out  
Like I never knew

Tell me what you see in me  
I'll tell you what I see in you
