

Feening For Bloodshed

Sanguisugabogg

I feel loss of control by this impulse
I try to hold back, but it frees

I am nothing without blood spilled
Afraid I'll go too far
I am shaking off these urges
Violently kill

An addict for homicide (Slaughter)
My demons, I satisfy
I will fill this appetite (Hunger)
Can't explain what's happening (To me)

I feel something when my knife goes right through
Different feeling than ever felt before

Addict for homicide (Slaughter)
My demons, I satisfy
I will fill this appetite (Hunger)
Can't explain what's happening (To me)

Can't explain this high I get from
Slowly killing, your blood on my hands

Itching just to kill again, motherfucker
Satisfy my crazy side
I'll slit your throat and watch you bleed, motherfucker
Your last breath, a final goodbye

Savage your whole life
Until you've met me
Now your time has come
Your life is ending

Itching just to kill again, motherfucker
Satisfy my crazy side
I'll slit your throat and watch you bleed, motherfucker
Your last breath, a final goodbye
