

Pissed

Sanguisugabogg

I've had enough
I'm tired of this shit
Morally corrupt
A danger to us all

Smash your skull on the concrete
Lay your body dead in the street
Know your role and do what you're told
Step to me and you'll get fold

Edging at the sight of
Your last breath
Nothing more exciting
Than your death

Sorrow, you're feeling sorrow
I bet you wish you never crossed my path
Erotic vicious bloodshed
A sense of joy that I hope will last me

I'll drive my fist into your face
I won't stop at first blood spilled
You cry but your mouth can't save you now
You must endure this punishment
You're fucked

Smash your skull on the concrete
Lay your body dead in the street
Know your role and do what you're told
Step to me and you'll get fold
I push the barrel beneath your lips
I'll end your life because I'm pissed
