

# Christmas Candle

Sanna Nielsen

Christmas lights and couple stone  
Snowman's walking Santa home  
Carols echo down the street  
Angels stomp their frozen feet

Sleigh bells jingle broken chimes  
Reindeer clouds across the skies  
Frosty cheeks and lullabies  
Make a wish and close your eyes

I light a Christmas candle just for you  
May all the pretty dreams you dream come true  
I light a Christmas candle cause I, I believe  
Miracles will find a way somehow on Christmas eve

Christmas lights and couple stone  
Listen, you are not alone  
Hear the silent sound of snow  
Falling on the world below

I light a Christmas candle just for you  
May all the pretty dreams you dream come true  
I light a Christmas candle cause I believe  
Miracles will find a way somehow on Christmas eve

Fa-la-la-la-la  
Fa-la-la-la-la-la-la-la-la-la

Sleigh bells jingle broken chimes  
Reindeer clouds across the skies  
Frosty cheeks and lullabies  
Make a wish and close your eyes

I light a Christmas candle just for you  
May all the pretty dreams you dream come true  
I light a Christmas candle cause I, I believe  
Miracles will find a way it's true  
Oh miracles will find a way, they do  
On Christmas eve
