

Relentless Renegades

Santa Cruz

Hey! Two, three, four, over the top!
Relentless renegades
Everybody kick it for the cruz mob
Step out of the shade

Roll-call for the revolt crew
The attitude sticks like a tattoo
Restraints into oblivion
Time to overload

Everybody wants it
(Let me hear your scream again)
All you wanna see is what we'll be

Huh, hey!
Relentless renegades!
We're killin' it like you've never heard
We came, we saw, we conquered

Bad moon is on the rise, everybody's gonna have a good time
Killjoys straight to six-foot under, it's the price of capital crime

Everybody wants it
(Let me hear your scream again)
All you wanna see is what we'll be

Huh, hey!
Relentless renegades!
We're killin' it like you've never heard
We came, we saw, we conquered

Huh, hey!
Relentless renegades!
We're killin' it like you've never heard
We came, we saw, we conquered

From the left to the right, we will fight
From the front to the back, we will get high
Everything you wanna see, is what we will be

From the left to the right, we will fight
From the front to the back, we will get high
Everything you wanna see, is what we will be

Sticks 'n stones may break our bones but they can never take us away!
Stampede coming better start running, get on your knees 'n pray!

Huh, hey!
Relentless renegades!
We're killin' it like you've never heard
We came, we saw, we conquered

Huh, hey!
Relentless renegades!
We're killin' it like you've never heard
We came, we saw, we conquered

Huh, hey!
Relentless renegades!
We're killin' it like you've never heard
We came, we saw, we conquered!
