

# Testify

Santa Cruz

I met you in the summertime  
Where you stole my heart, made me feel alright  
All the wasted years that I lived without your light  
I used to think I had a broken heart  
Till the first time I held you in my arms  
You give me life, lift me into the sky

I can feel like I'm lost, but I don't know why  
And when you're not there, I feel dead inside  
Let me pull you closer, one more night  
I'm not the same, you're to blame

You and I  
I got to keep you by my side  
I will keep you satisfied  
What can I do?  
You and I, testify  
You and I  
I got to keep you satisfied  
Everything will be alright  
What can I do?  
You and I, testify

I made a wish on a shooting star  
When we were lyin' on our backs in your backyard  
All that I could ask was to stay right there with you

I can feel like I'm lost, but I don't know why  
And when you're not there, I feel dead inside  
Let me pull you closer, one more night  
Oh, I'm not the same, you're to blame

You and I  
I got to keep you by my side  
I will keep you satisfied  
What can I do?  
You and I, testify  
You and I  
I got to keep you satisfied  
Everything will be alright  
What can I do?  
You and I, testify

You and I  
I got to keep you by my side  
Everything will be alright  
What can I do?  
You and I, testify  
You and I  
I got to keep you by my side  
I will keep you satisfied  
What can I do?  
You and I, testify  
You and I  
I got to keep you satisfied  
Everything will be alright  
What can I do?

You and I, testify
