

## Nothing's Gonna Be Alright

Santa Hates You

Sleep baby, sleep  
Father is a creep  
Mother is so sick  
Forget the treat - here comes the trick  
Now it's time for you to sleep  
Daddy's gone off the deep end  
Hush now baby, not a peep  
Mama's going around the bend.

Sleep, sleep out through the night  
Cause nothing, nothing, nothing's gonna be alright  
Sleep, sleep all under the moonlight  
Nothing, nothing, nothing's gonna be alright  
Sleep, sleep all through the night  
Nothing, nothing, nothing's gonna be alright  
Sleep, sleep all under the moonlight  
Nothing, nothing, nothing's gonna be alright

Sleep, little one, sleep tight  
Don't let real life's demons bite  
Daddy shakes the fakeland tree  
And from it fall sweet lies for thee  
You'd better sleep a hundred years  
The human curse will never end  
No matter what they told you  
We're all caught in quicksand

Sleep, sleep all through the night  
Cause nothing, nothing, nothing's gonna be alright  
Sleep, sleep under the moonlight  
Nothing, nothing, nothing's gonna be alright

Sleep in sweet repose  
Close your dead eyes over Morpheus arms  
Shall be your rest for ever

Sleep, little ones  
Nothing's gonna be alright  
Sleep, little ones  
Nothing's gonna be alright  
Sleep, sleep all through the night  
Cause nothing, nothing, nothing's gonna be alright  
Sleep, sleep under the moonlight  
Nothing, nothing, nothing's gonna be alright
