

We Need You Alive

Santa Hates You

Your eyes are wide open
Your innocence is gone
You think there is no point
And trying to survive
Well, think again my friend
We need you alive

We, need, you, alive
We, need, you, alive
We, need, you, alive
We, need, you to try and survive

Right when you're born
This volume and your feeling gone
You think there is no point
And trying to survive
Well, think again my friend
We need you alive

We, need, you, alive
We, need, you, alive
We, need, you, alive
We, need, you to try and survive

Try and survive
Try and survive
Try and survive
