

Break

Santana

Never feel alone
Never feel there's no one there who cares for you
When every door seems closed
Mine is open wide for you

I'll give you strength
Restore your faith
I'm the one who'll be around if it all falls down
I will hold you

I'll be there if you break
I'll be there if you crumble
Come to you if you come undone
Catch you if you stumble
I'll do what it takes
To put the pieces back in place
If you break

Never feel ashamed
I never feel it's weak if you should reach for me
When I'm chained by the pain
You'll be there to set me free

I'll give you love
Lift you up
I'm the one who'll be around if it all falls down
I will hold you

I'll be there if you break
I'll be there if you break
I'll be there if you crumble
Come to you if you come undone
Catch you if you stumble
I'll do what it takes
To put the pieces back in place
If you break

But if there comes a time
When I might need someone
Will you be there?
Say you'll be there

Be there if I break
Be there if I break
Be there if I crumble
Come to me if I come undone
Catch me if I stumble
I'll do what it takes
To put the pieces back in place
If you break

Be there if I crumble
Come to me if I come undone
Catch me if I stumble
I'll do what it takes
To put the pieces back in place
If you break

If you break
