Move

Santana

You got me losing my head
I never know what I said
You got me spinning around and around
I never know if I'm right
But I been feeling tonight
That we can make all the walls come down
And I was singing, ooh-ooh
'Cause I feel like I want ya
We're coming to life and today is a brand new day

Let me see you move like you're burning the house down
I wanna see you move like you're working it out now
I'm begging for you move, now stay like that, you can't go back
'Cause the feeling makes you move, uh-huh, hey, hey

Let me see you move
Let me see you move

The way you pull me in close
You got a spell on my soul
Oh, Lord, have mercy, I've been hypnotized
You got me singing ooh-ooh
'Cause I feel like I need ya
We're coming to life and (damn, did you feel that?)

Let me see you move like you're burning the house down
I wanna see you move like you're working it out now
I'm begging for you move, now stay like that, you can't go back
'Cause the feeling makes you move, uh-huh, hey, hey

I wanna see you move
Let me see you move, hey, hey
I wanna see you move
Let me see you move

Let me see you move like you're burning the house down
I wanna see you move like you're working it out now
I'm begging for you move, now stay like that, you can't go back
'Cause the feeling makes you move, uh-huh, hey, hey

I wanna see you move
Let me see you move, hey, hey
I wanna see you move
Let me see you move
Let me see you move
