

# Lights Out

Santigold

Lights out  
Shoot up the station  
TV's dead, where is there to run  
Watch everybody come undone  
Lights out

We'll make it easy  
We'll make it fun  
Won't let them see now  
How they have won  
Still I wait another round

Darlin'  
Don't got to worry, you're locked in tight  
Darlin'  
No don't you worry turn out the light

Wiped out  
No concentration  
They got us baskin' in a storm  
I watch it as it loses form  
Wiped out

Whey could see me  
That's what I want  
A casualty but I am upfront  
And i know what it's about

Lights out  
Shoot up the station  
TV's dead, where is there to run  
Watch everybody come undone  
Lights out

We'll make it easy  
We'll make it fun  
Won't let them see now  
How they have won  
Still I wait another round

Darlin'  
Don't got to worry, you're locked in tight  
Darlin'  
No don't you worry turn out the light

I'm still ashakin my head  
The one you can't account for  
I keep just one step ahead  
There's no place to run

Darlin'  
Don't got to worry, you're locked in tight  
Darlin'  
No don't you worry turn out the light

Darlin'  
Don't got to worry, you're locked in tight

Darlin'  
No don't you worry turn out the light
