

Nothing

Santigold

Hate me if you want to I won't lose my head
Tell me what you want I won't believe a thing
I hear you talking loud when it's unsaid
(Imagine that)
All you ever told me I could be nothing

Won't you tell me what you mean yeah
What do ya, what do ya?
Won't you tell me what you mean yeah
What do ya, what do ya?

All day I fight what I can't see, my nothing
Over and over, hangs over me
On the inside I got to beat my nothing
Over and over
To know I mean something

Won't you say I mean something
Won't you say I mean something
You keep telling me I'm nothing

Got me where you want you know you're in my head
Still whatever hold I'm in you seen me rise through it
Is it me or is it you I push to outdo here
(Who am I outdoing?)
Am I free proving I'm better just so I'm not less

Won't you tell me what you mean yeah
What do ya, what do ya?
Won't you tell me what you mean yeah
What do ya, what do ya?

All day I fight what I can't see, my nothing
Over and over, hangs over me
On the inside I got to beat my nothing
Over and over
To know I mean something

Won't you say I mean something
Won't you say I mean something
Say I mean something
Won't you say I mean something
Don't keep telling me I'm nothing
Say I mean something
