

## Bend Not Break

Sara Bareilles

Why don't we bend  
So we don't break  
Why don't we lean on each other to carry the weight  
Again and again  
Together we stay  
Why don't we bend so we don't break

I could feel the pressure on me  
From every direction on me  
Every time we learned the rules you change the game

But we learned our lesson already  
Got our secret weapon all ready  
And it's got eight legs, four smiles and a cane

We have a bond that can't be broken  
We took the long way here  
And we're not turning back now  
No matter where we end up goin'  
The one thing we know  
Is we won't go alone

Why don't we bend  
So we don't break  
Why don't we lean on each other to carry the weight  
Again and again together we stay  
Why don't we bend so we don't break

Why don't we bend why don't we bend  
Why don't we bend  
So we don't break  
Why don't we lean on each other to carry the weight  
Again and again  
Together we stay  
Why don't we bend so we don't break why don't we bend so we don't break

Why don't we bend  
Why don't we bend  
Why don't we bend  
So we don't break  
Why don't we lean on each other to carry the weight  
Again and again  
Together we stay  
Why don't we bend so we don't break
