

# Can't Wait 2 Wait

Sara Bareilles

I can't wait to wait  
Don't make me wait any longer  
To wait makes us stronger  
Your parts are little sneaks who don't want you to wait

Because they know in heaven  
They get checked at the gate  
Saint Peter don't let no sleaze get by  
That's how angels are light enough to fly  
Now doin' it may seem natural and legit  
But there's a reason Stephen King named his killer clown "It"

It steals your youth and drags you into the sewer  
But waiting guarantees you the perfect future

I can't wait to wait  
Don't make me wait any longer  
To wait makes us stronger  
Premarital urges aren't itches to be scratched  
So look up medical oddities 'til those feelings pass

Jesus waited  
Santa waited  
George Washington waited  
Kermit waited  
Snoopy waited  
Dingus Duck didn't wait  
Which is why you've never heard of him  
He died of STDs from doing sex on a whim

I can't wait to wait  
Don't make me wait any longer  
To wait makes us stronger  
You don't have to carry shrimp to be a super cool waiter

So let's make a date  
To  
Wait
