

# Orpheus

Sara Bareilles

Come by the fire  
Lay down your head  
My love I see you're growing tired so set the bad day by the bed  
And rest a while  
Your eyes can close  
You don't have to do a thing but listen to me sing I know  
You miss the world  
The one you knew  
The one where everything made sense because you didn't know the truth  
That's how it works  
Till the bottom drops out  
And you learn we're all just hunters seeking solid ground

Don't stop  
Trying to find me here amidst the chaos  
Though I know it's blinding  
There's a way out  
Say out loud  
We will not give up on love now  
No fear  
Don't you turn like Orpheus  
Just stay here  
Hold me in the dark and when the day appears  
We'll say  
We did not give up on love today

I'll show you good  
Restore your faith  
I'll try and somehow make a meaning of the poison in this place  
Convince you love, don't breathe it in  
You were written in the stars that we are swimming in  
And it has no name  
No guarantee  
It's just the promise of a day I know that some may never see  
But that's enough  
If the bottom drops out  
I hope my love was someone else's solid ground

Don't stop  
Trying to find me here amidst the chaos  
Though I know it's blinding  
There's a way out  
Say out loud  
We will not give up on love now  
No fear  
Don't you turn like Orpheus  
Just stay here  
Hold me in the dark and when the day appears  
We'll say  
We did not give up on love today  
We'll say  
We did not give up on love today
