

Heartless

Sara Evans

Been dancing round it a long time
You always lead and I follow
We always move to the same song
Wrong rhythm, wrong rhyme

Every time that you lie to me
Your words just cut to the bone
Dying fast from a slow bleed
You could save me
But you won't

Don't leave me lost in the darkness
Baby
How could you be so heartless
To me
You're just so selfish and reckless
Hunny
This time you've run out of chances
If we're going down
We're go down at the same time
Down at the same time

Who's gonna hold out the longest?
Who's gonna do something first?
Don't even think I won't go there
'Cause If you hurt me
I'll hurt you worse

Don't leave me lost in the darkness
Baby
How could you be so heartless
To me
You're just so selfish and reckless
Hunny
This time you've run out of chances
If we're going down
We're go down at the same time
Down at the same time

You think I'll stay down on my knees
You under-estimated me

Don't leave me lost in the darkness
Baby
How could you be so heartless
To me
You're just so selfish and reckless
Hunny
This time you've run out of chances
If we're going down
If we're going down
We're go down at the same time
Down at the same time
