

Revival

Sara Evans

Look at that boy in the revival
So commit with faith
Look at that girl on the court had steps
Same thing gotta change

These are the women on the corner
Hitting on coffee at the work
She is listening to those working girls
The one that never get hurt

Every time I think I get lost
This world is nothing but luck
Got all with someone that just to start things up

Halley New York a little revival
Amin to Lord
Deep in my soul a little revival
Amin to Lord

Yeah the rumbles down in your heart
You've got something to say
That kid with the guitar in the subway
It might change the world some day
If it's too roof so long'square
Didn't need a way to start it well
So want do it some way

Halley New York a little revival
Amin to Lord
Deep in my soul a little revival
Amin to Lord

Each one is down in the darkness
The actions it's in the spark
My miracle moment was, I'm giving you my heart

Halley New York a little revival
Amin to Lord
Deep in my soul a little revival
Amin to Lord

Halley New York a little revival
Amin to Lord
Deep in my soul a little revival
Amin to Lord

Halley New York a little revival
Amin to Lord
Deep in my soul a little revival
Amin to Lord
