

We Wait

Sara Groves

We wait for a story
A stillness a candle, a light
We wait for forgiveness
A sense of direction, a sign

We wait for You
This month of endless night
Prepare You room
For making all things right
We wait

We wait for a break in the weather
The traffic, a line
We wait for the light of the morning
A truce in the fight

We wait for You
This month of endless night
Prepare You room
For making all things right
We wait

We wait for You
This month of endless night
Prepare You room
Cathedrals made in time

We wait for peace
And goodwill to all men
We wait to see
The waiting is not vain
We wait

We wait
For You
