

When It Was Over (Reprise)

Sara Groves

When it was over and they could talk about it
She said there's just one thing I have got to know
What in that moment when you were running so hard and fast
Made you stop and turn for home
He said I always knew you loved me even though I'd broken your heart
I always knew there'd be a place for me to make a brand new start

Oh love wash over a multitude of things
Love wash over a multitude of things
Love wash over a multitude of things
Make us whole

When it was over and they could talk about it
They were sitting on the couch
She said what on earth made you stay here
When you finally figured out what I was all about
He said I always knew you'd do the right thing
Even though it might take some time
She said, Yeah, I felt that and that's probably what saved my life

Oh love wash over a multitude of things
Love wash over a multitude of things
Love wash over a multitude of things
Make us whole

There is a love that never fails
There is a healing that always prevails
There is a hope that whispers a vow
A promise to stay while we're working it out
So come with your love and wash over us
