You're my favorite now
Big breath
I'm not leaving room for breathing out
I would die for you
What's your last name
Baby, I'd trade mine for you

On my mind all the time
Like you tryna break it
Left to right I'm ur type
Light skin w the braidzes
Hold you tight, Venus fly
Matching constellations
Too late to decide
To tell me you're mine
It's already me baby face it

Do you think I'm pretty
51 50
You wanna be mine
Stuck on the borderline
51 50
You ain't even pretty
But I wish you were mine
Stuck on the borderline

Outta love again
Imma make you like it
Then you want me back
I don't even like it
Outta love again
Imma make you like it
Then you want me back
I don't even like it

Why you got your hand on her's
Don't know what you're asking for
Play with fire, burn you twice
Play with me, I play with knives

On my mind all the time
Like you tryna break it
Left to right I'm ur type
Light skin w the braidzes
Hold you tight, Venus fly
Matching constellations
Too late to decide
To tell me you're mine
It's already me baby
Face it

Do you think I'm pretty

51 50
You wanna be mine
Stuck on the borderline
51 50
You ain't even pretty
But I wish you were mine
Stuck on the borderline

Outta love again
Imma make you like it
Then you want me back
I don't even like it
Outta love again
Imma make you like it
Then you want me back
I don't even like it

I need you to need me
Need you to let me inside
U need need to believe me
Like everything else is a lie
I need you to need me
Need you to let me inside
U need need to believe me
Like everything else is a lie
I need you to need me
Need you to let me inside
U need need to believe me
Like everything else is a lie

I need you to leave me
I need you to leave me

Outta love again
Imma make you like it
Then you want me back
I don't even like it
Outta love again
Imma make you like it
Then you want me back
I don't even like it
