

My Wave

Sara James

I don't care what you think I should do
You don't appreciate these small things like I do
Like heaven on earth
When I'm alone it feels like paradise, yeah

Form myself a little piece of magic on my own
Ain't nobody taking anything from me no more
Break away, break away, I don't need your vibes
There is nothing that can stop me when I'm on my own

All day, all night
I will learn to fly
Spread my wings out
And touch the sky
All day, all night
It's just me for myself
Lovin' me for myself
Ridin' on my own wave

My wave, my wave
My wave, my wave
My wave, my wave

Don't think you know me, no
You only want my attention, I'll leave you waitin', stop
Making a scene
Over what has been and just move on, yeah

Form myself a little piece of magic on my own
Ain't nobody taking anything from me no more
Break away, break away, I don't need your vibes
There is nothing that can stop me when I'm on my own

All day, all night
I will learn to fly
Spread my wings out
And touch the sky
All day, all night
It's just me for myself
Lovin' me for myself
Ridin' on my own wave

My wave, my wave
My wave, my wave
My wave, my wave
Ridin' on my own wave
My wave, my wave
My wave, my wave
My wave, my wave

My wave, my wave
My wave, my wave
