

## Down Low

Sara Kays

It's been days I haven't seen your face  
My first thought was not I've been replaced  
But then I saw you with somebody other than me  
I closed my eyes cause I don't wanna believe what I see

You're sitting on the ground, arm around a girl that I don't know  
She leans in closer and I know it's over when I see your eyes glow  
You just keep on looking at her like she is the only one you've ever known  
I'm just now finding out you know how to love on the down low

I saw you look at her and that look I know  
My head stayed high but my heart it sunk so low  
Why'd you take her to a place you knew I could be?  
I turn away cause I'm starting to believe what I see

You're sitting on the ground, arm around a girl that I don't know  
She leans in closer and I know it's over when I see your eyes glow  
You just keep on looking at her like she is the only one you've ever known  
I'm just now finding out you know how to love on the down low

Down low, down low  
Down low, down low  
Down low, down low  
Down low, down low

You're sitting on the ground, arm around a girl that I don't know  
She leans in closer and I know it's over when I see your eyes glow  
You just keep on looking at her like she is the only one you've ever known  
I'm just now finding out you know how to love on the down low  
Down low, down low

Down low, down low  
Down low, down low  
Down low, down low  
Down low, down low
