

What Have You Got To Lose

Sara Paxton

Lights out, but I can see you
You're lost and can't decide which way to go
Cause the real world is looking
So much harder than everything you dreamed of so long ago

You've been here way too long
Should have stayed yesterday
But now you're moving on
Tomorrow's just a day away

Everything you need is right inside
Gotta step up
It's not impossible
Dream your life away till you're out of time
We're never wondering if it was possible
What have you got to lose?

Decisions every day
So take on board what other people say
You're too young to drink that
Are we too old to look good doing it?

Let yourself be wrong
Stand up and have your way
Try putting down your gun

Tomorrow's just a day away
Everything you need is right inside
Gotta step up
It's not impossible
Dream your life away till you're out of time
We're never wondering if it was possible
What have you got to lose?

Everything you need is right inside
Gotta step up
It's not impossible
Dream your life away till you're out of time
We're never wondering if it was possible

Everything you need is right inside
Gotta step up
It's not impossible
What have you got to lose?
