

# Katherine

Sara Storer

Her name was Katherine and he'd talk of her  
The mess she'd left and the heart she'd tore  
Was it real that she was coming up again?  
She'd laid low for a couple of years  
And the panic struck as she drew near  
Now she threatened to visit her old friend  
He and his mates they'd all get together  
And they'd talk about her and then 'bout the weather  
And he tell 'em he couldn't go another round  
Lady I know what you've come to do  
And just between me and you  
It will break him if you come running back through his town  
Katherine River just like a lover  
I would rather you get out of this town  
Take your memories with you where you go  
To secret places only rivers know  
Get out of this town  
Her name was Katherine she was high as wide

With a peaceful beauty and a dangerous side  
Now her name re echoes in the wind  
I'm begging you Katherine your name so sweet  
He can't abide your dark deceit  
Not knowing when your storm will rise again  
Katherine River just like a lover  
I would rather you get out of this town  
Take your memories with you where you go  
To secret places only rivers know  
Get out of this town  
And oh when those dark clouds cry  
And those tears they fall between your sides  
Spread out wide and then we're all covered in A river called Katherine  
Katherine River just like a lover  
I would rather you get out of this town  
Take your memories with you where you go  
To secret places only rivers know  
Get out of this town
