

## daydream

Sarah Barrios

Driving  
Drive through the summer breeze  
As you hang your head outta the window  
God, I could pinch myself  
Cause this feels like movie scene

You laugh as you throw your hair back  
Oh, I lose my mind  
And I never wanna let this go  
You're a feeling that I can't unknow

Oh, I could stay here forever  
Your kiss on my lips  
I think I died  
And don't mind

Heart races when we're together  
When you're close I don't wanna  
Sleep at night  
Oh, I hope I never wake from this daydream

Wrap me  
Wrap me in silk and lace  
Fingertips they're tracing my outlines  
Your clothes scattered cross the floor  
And I think they look best this way

Those brown eyes are pullin' me in  
As you whisper slow  
That you never wanna let this go  
I'm a feeling that you can't unknow

Oh, I could stay here forever  
Your kiss on my lips  
I think I died  
And don't mind

Heart races when we're together  
When you're close I don't wanna  
Sleep at night  
Oh, I hope I never wake from this daydream

No, I never wanna wake from this daydream
