

halloween (demo)

Sarah Barrios

I thought I heard your voice again
Swear I felt your fingers up against my skin

Some days it feels like you're closer than ever before
But most days it feels like I'm losing you over once more

And I'm holding on
To every little part of you there ever was

It's Halloween
Every day every moment
I see you everywhere now
Over and over
I never get lonely
Talking to you out loud
And walking this haunted house

I still pick your favorite flowers and hang them up right by the door
Did you think you could leave me and somehow I wouldn't be yours

And I still hold tight
Reaching out for you in the bed at night

It's Halloween
Every day every moment
I see you everywhere now
Over and over
I never get lonely
Talking to you out loud
And walking this haunted house

It's Halloween
Every day every moment
I miss your everything now
Over and over
Sometimes I get lonely
Talking to you out loud
Me and my empty house
