

Coasting Speed

Sarah Bettens

The path is clear
We've finally found
Our coasting speed
We like the sound
Of life not changing
As it passes by

We've had our share
We've fought our fight
We stood up tall
With no end in sight
We knew we'd never
Let it pass us by

But we're not immune
To shadows cast
By days
That look the same
Ohhh

When your heart's no longer
Blindly on my side
When the hand you touch
Won't melt when we say goodbye

I won't let you
I won't let you
Down
I won't let you down

It's good to watch
Your own life sometimes
And let everything
But you decide
If your eyes are open
It won't pass you by

But the ride goes on
And on and on
It might seem much too long
Ohhhh

When your heart's no longer
Blindly on my side
When the hand you touch
Won't melt when we say goodbye

I won't let you
I won't let you
Down
I won't let you down

Sometimes being happy
Feels like
Something must be wrong
When things go wrong

I won't let you down
I won't let you
Down
I won't let you down

My heart's
Still blindly on your side
My heart
Still breaks when we say goodbye

I won't let you
I won't let you
Down
I won't let you down

I won't let you
Down
I won't let you down

I won't let you
Down
I won't let you
Down

I won't let you
Down
I won't let you down
