

Shine

Sarah Bettens

She says she's got it all planned out
She's got places to go
And I don't have a single doubt
She will find her way home

And she laughs
Like she's free
And it's like a thousand lights that
Once she moves
With her soul

Shine, shine when the world is dark as night
Don't be afraid to know you're right
And when you just can't shine no more
That's what I'm here for
Ooohh

I know that I can't trade with you
I was ten once before
But all the things that make you you
I would pay highly for

And she laughs
Like she's free
And it's like a thousand lights that
Once she moves
With her soul

Shine, shine when the world is dark as night
Don't be afraid to know you're right
And when you just can't shine no more
That's what I'm here for

And I know you're here for a million reasons
Some still to come
In my heart you're here
To make sure that I have
One more girl to love

Shine, shine when the world is dark as night
Don't be afraid to know you're right
And when you just can't shine no more
That's what I'm here for
