My mistake Baby Boy

Sarah Blackwood

baby boy,
well I've been missing you
and I'm wonderin' where your thoughts cross into mine
and honey, I see you and your mysterious eyes
so sweet and dark, was it a mistake
when I said I had to go away

cause I love you
and you don't even know that
I'm right beside you every night
and I'm thinkin' bout the times we had
when we were together
my heart is bleeding over you
should I wait?

baby boy,
well the thought of you elsewhere
with another girl it breaks me into fear
of losin' everything in a single moment
did I let go and think we'd find a way
to be together someday

cause I love you
and you don't even know that
I'm right beside you every night
and I'm thinkin' bout the times we had
when we were together
my heart is bleeding over you
should I wait?

baby boy I've been missin' you
did I make a mistake
when I said I had to go away my darling
can we be together someday?

cause I love you
and you don't even know that
I'm right beside you every night
and I'm thinkin' bout the times we had
when we were together
my heart is bleeding over you
should I wait?
darling... shhhh...
