

Colder than Winter

Sarah Brightman

It's colder than winter
Right here in my heart
Yes, I'm going to miss him
He's torn me apart

Couldn't make you love me
Couldn't give you any more
It's colder than winter
Since you closed the door

Every time the sun sets
I shed another tear
And lonelier that I get
Wishing you were still here

It's colder than winter
I'm freezing inside
My tears won't be bitter
Even though our love died

Couldn't make you love me
I couldn't give you any more
It's colder than winter
Since you closed the door

Couldn't make you love me
I couldn't give you any more
Now it's colder than winter
Since you closed the door
It's colder than winter
Since you closed the door
