

# Only the Truth

Sarah Buxton

Come on baby wake up can't you hear that sound  
Is it in the air or is it underground  
Does it haunt your sleep ringing through the night  
It's only getting louder every time we lie

It's like the sound of a roaring engine racing down the street  
It's like the sound a million horses pounding my heartbeat  
And there'll be no denying; you'll know when you hear it  
Stand with me baby we don't have to fear it  
It's only the truth

Baby step into the room where all is known  
I hope that I can stay but I won't stay alone  
I'm blowing out the candle find your way to me  
Until I feel you with me I can find no peace

It's like the sound of a roaring engine racing down the street  
It's like the sound a million horses pounding my heartbeat  
And there'll be no denying; you'll know when you hear it  
Stand with me baby we don't have to fear it  
It's only the truth  
I'm gonna know when I hear it  
Gimme the truth

Let it set us free  
Every word we speak  
Baby look at me  
Don't you turn away

Why's it feel like a lie when you touch me  
I'm asking your eyes do you love me

It's like the sound of a roaring engine racing down the street  
It's like the sound a million horses pounding my heartbeat  
And there'll be no denying; you'll know when you hear it  
Stand with me baby we don't have to fear it  
It's only the truth  
I'm gonna know when I hear it  
Gimme the truth
