

# Make You Happy

Sarah Close

What you doing tonight?  
Are you sat home running through the back of your mind?  
All the pieces that you don't want no one to find  
I know where they are  
Is there someone there?  
Are you crying in the hallway thinking no one cares?  
Do the thoughts in your head leave you feeling scared  
Like you're losing all control?

When it gets emotional  
Don't take your fears and hide  
And when you get emotional, emotional  
I'll wipe the tears out your eyes

I can't make you happy, I can't be the one  
You never gonna find what you're looking for if you're looking for someone  
I can't make you happy, but I'll be by your side  
Standing right there, I'll give you strength if you got the strength to try,  
try, try

To find your happy, ooh  
If you try to find your happy, ooh  
If you try to find your happy, ooh  
If you try to find your happy

When it's harder to breathe  
Got me thinking, "Is it really tough love that you need?"  
When's the moment gonna come that you finally see  
Only you can help yourself grow?  
So maybe go, go paint a picture  
Whatever it takes to convince you  
To get out of your head and get out of your mind

I can't make you happy, I can't be the one  
You never gonna find what you're looking for if you're looking for someone  
I can't make you happy, but I'll be by your side  
Standing right there, I'll give you strength if you got the strength to try,  
try, try

To find your happy, ooh  
If you try to find your happy, ooh  
If you try to find your happy, ooh  
If you try to find your happy, are you happy? Oh

When it gets emotional  
Don't take your fears and hide  
When it gets emotional, emotional  
I'll wipe the tears out your eyes

'Cause I can't make you happy, I can't be the one  
You never gonna find what you're looking for if you're looking for someone  
I can't make you happy, but I'll be by your side  
Standing right there, I'll give you strength if you got the strength to try,  
try, try

To find your happy, ooh  
If you try to find your happy, ooh

If you try to find your happy, ooh  
If you try to find your happy, are you happy?
