

I'm Gonna Find You

Sarah Connor

1. Lonely days I tried to find you
Didn't know how lost I was
So many years I was so blind too
Confusing neediness for love

*: I believe in magic
But that's not what I need
Looking for the meaning of reality

R: I know
I'm gonna find you
The day I come you'll open up that door
I know
I'm gonna break through
As easy as just walking in
A halfway open door
I'm gonna find you

2. Maybe we've met in places
Or maybe that was just a dream
Inner eyes reveal what you fail to see
'til later babe
Or are they future memories?

*: I believe in magic...

R: I know...

C-Part:

I know my heart is too young
To sing the same old song
But I long for you...
Someone have never known, baby
What would a wise heart say
To make the crazy sane
Or will you recognize
My image in my eyes?

R: I know...
