

# Standing On Top Of The World

Sarah Connor

You thought I was weak and was all alone  
But I am free and I'm powerfull  
Thought I was alone and pitiful  
But I am strong, individual

You thought I'm on my way down  
But I'm on a rebound  
Thought I was falling  
But I got my feet on solid ground  
I just believe in myself

That's why I'm standing on top of the world now  
And no there ain't nothing gonna bring me down  
I'm just gon' keep on going living every moment head up high  
That's right  
Cause I'm standing on top of the world now  
And don't you ever think you're bringing me down  
You can hate, You can take  
You can try your best to break me  
But I'm on top of the world

I'm on top of the world

Thought on you I could rely  
But you let me down  
But the there were you lies  
And I caught you out

You thought I'm on my way down  
But I'm on a rebound  
Thought I was falling  
But I got my feet on solid ground  
I'll keep believe in myself

That's why I'm standing on top of the world now  
And no there ain't nothing gonna bring me down  
I'm just gon' keep on going living every moment head up high  
That's right  
Cause I'm standing on top of the world now  
And don't you ever think you're bringing me down  
You can hate, You can take  
You can try your best to break me  
But I'm on top of the world

I'm on top of the world

You thought I'm on my way down  
But I'm on a rebound  
Thought I was falling  
But I got my feet on solid ground  
And I'm getting stronger  
I'm gon' be here for longer  
I'm never gonna doubt myself

That's why I'm standing on top of the world now  
And no there ain't nothing gonna bring me down  
I'm just gon' keep on going living every moment head up high

That's right  
Cause I'm standing on top of the world now  
And don't you ever think you're bringing me down  
You can hate, You can take  
You can try your best to break me  
But I'm on top of the world

I'm on top of the world
